SOFT PERSPECTIVES

siderio
pensiero. forma. materia.

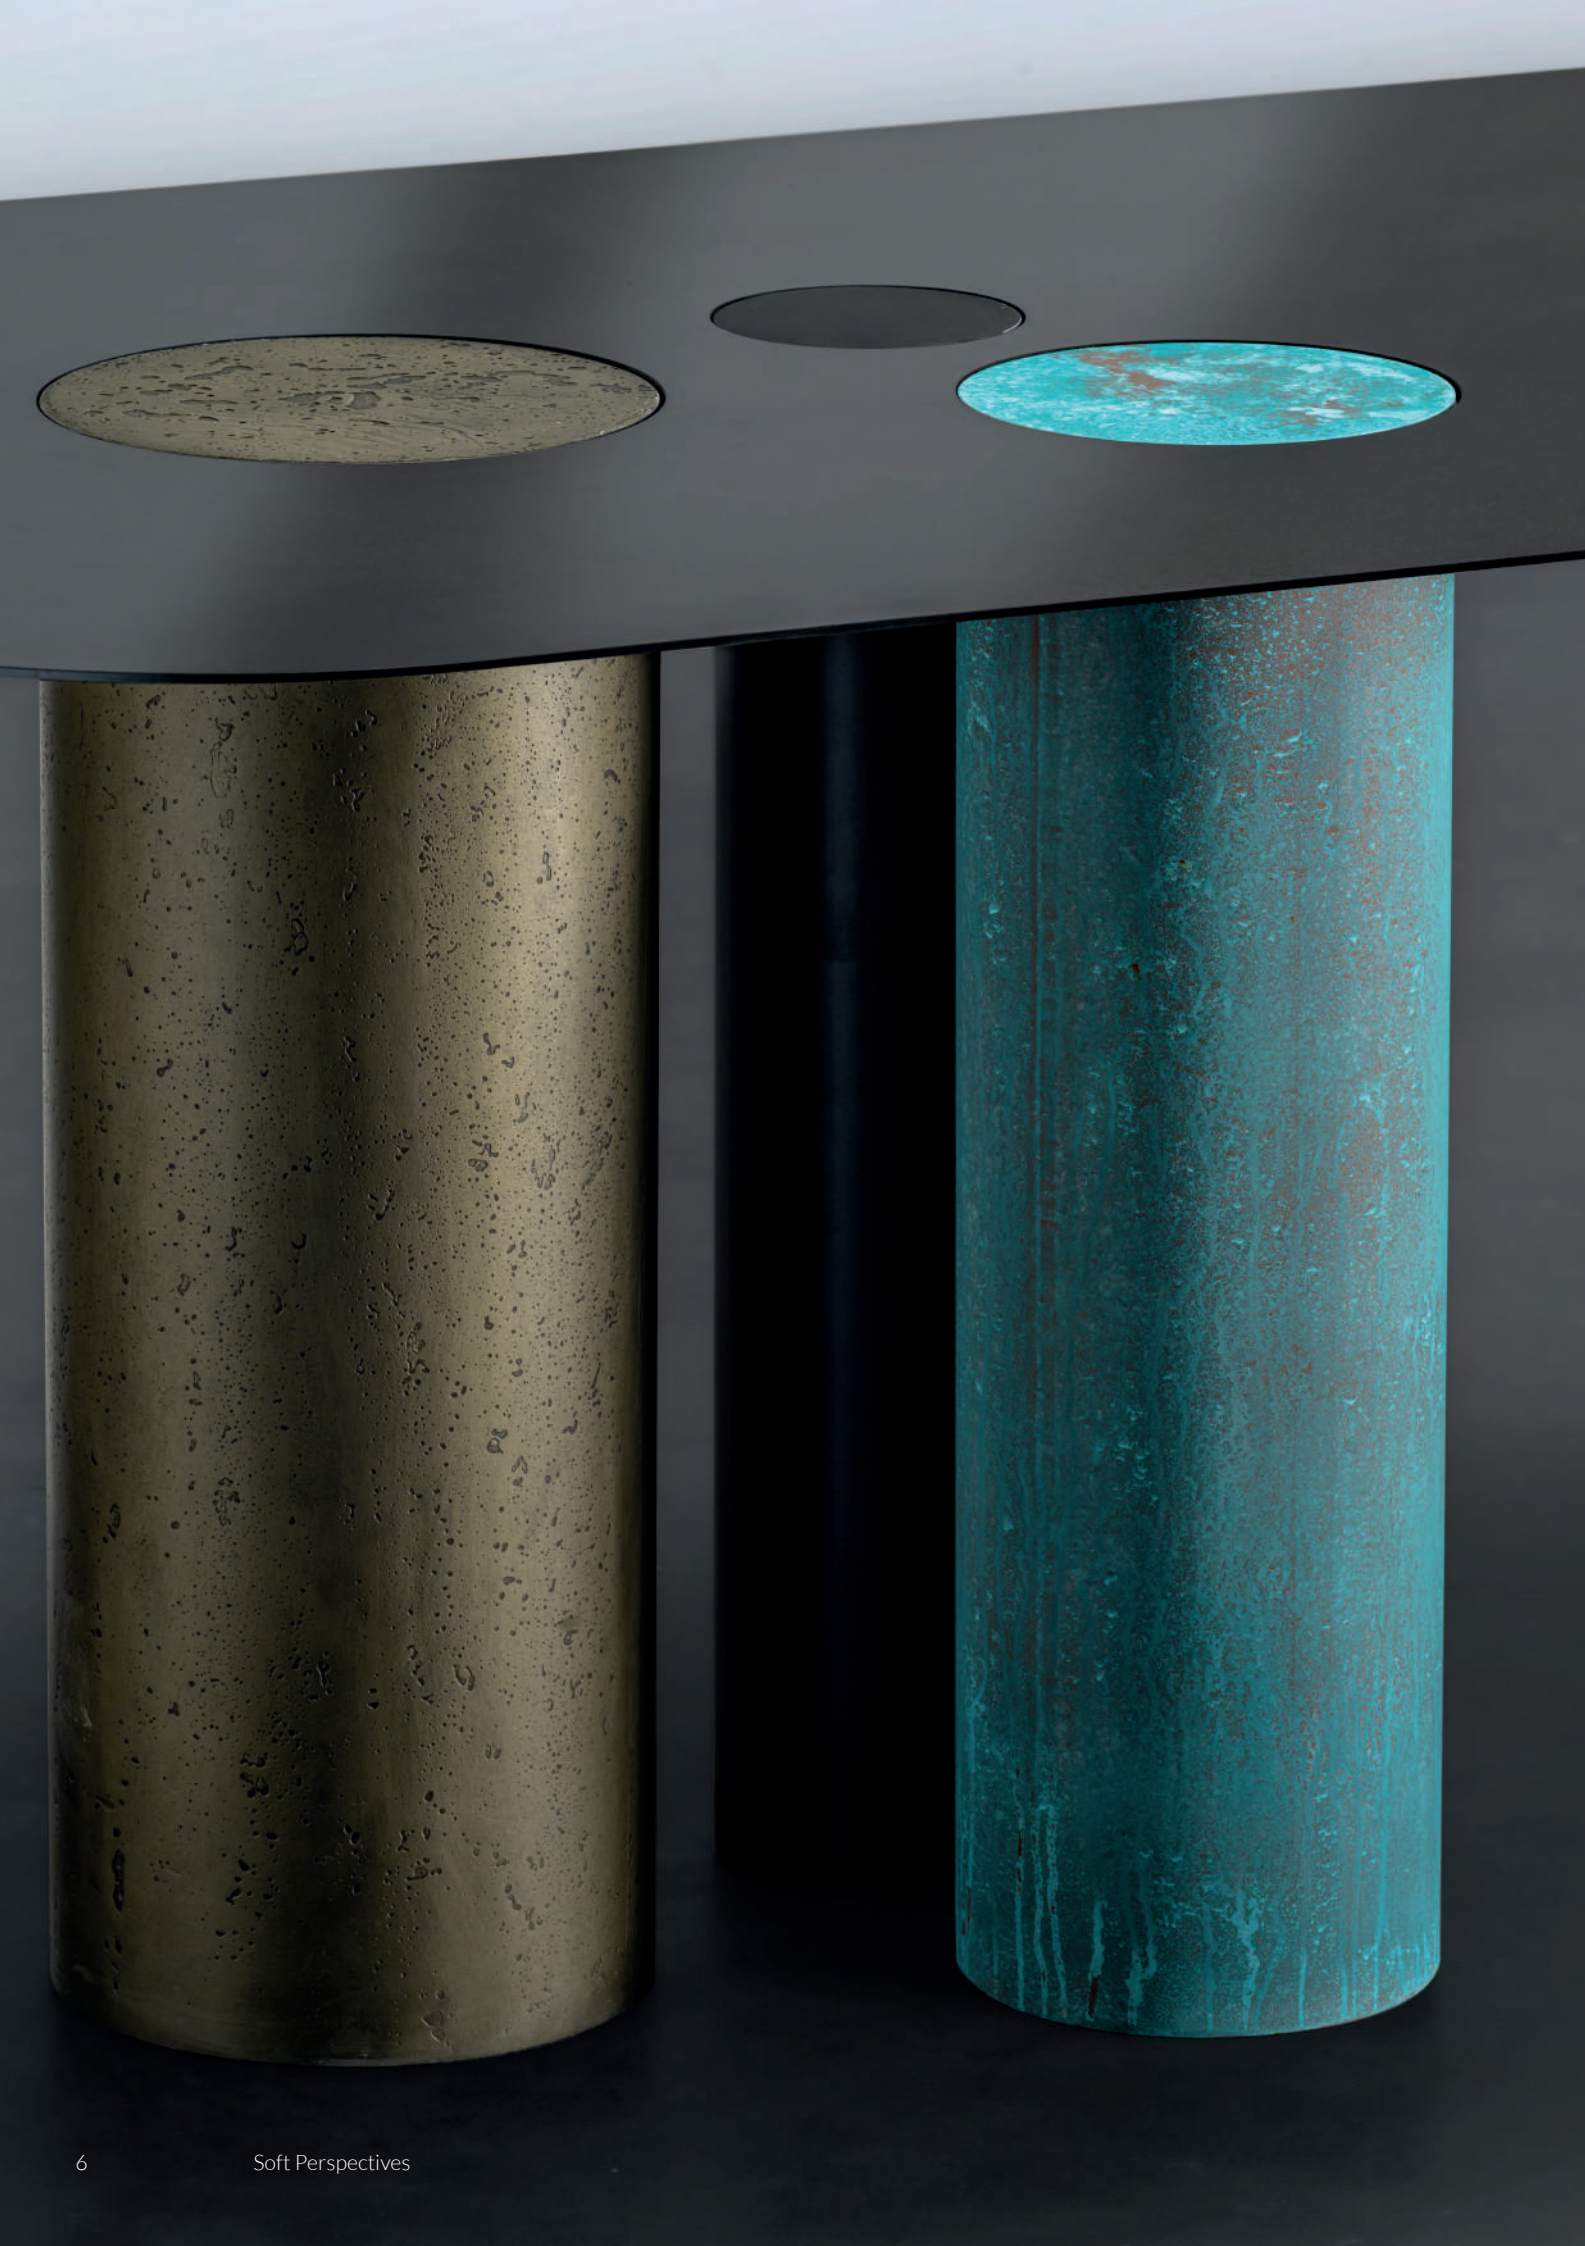

Soft Perspectives rappresenta il cambio di passo per **Siderio** nella direzione di un approccio incentrato sulla ricerca estetica e sulla matericità del metallo e delle sue forme. La rassegna comprende tre collezioni inedite firmate dai designer **Susanna Mandelli**, **Alessandro Tonini** ed **Enrico Guazzi**, presentate nel contesto del nuovo spazio espositivo Siderio Hub a Milano in via Palermo 1, dall'8 al 13 aprile 2025.

Le tre collezioni interpretano appieno la volontà del marchio di proiettarsi verso una **nuova dimensione stilistica** in cui la natura dell'acciaio risulti valorizzata sia per le sue proprietà plastiche che in veste di vero e proprio elemento d'arredo. Le tre collezioni si rifanno al concetto di Soft Perspectives, un diverso approccio al metallo in cui le linee morbide e le nuove finiture materiche consentono al materiale di essere inquadrato in una rinnovata prospettiva estetica, senza rinunce in termini di funzionalità.

***Soft Perspectives** marks a turning point for **Siderio**, embracing an approach centered on aesthetic research and the materiality of metal and its forms.*

La designer **Susanna Mandelli** firma **7X**, la collezione costituita da tavoli dal design elegante e raffinato. Il numero 7 è il protagonista nascosto in piena vista: nelle misure dei diversi elementi, i suoi multipli instaurano un delicato dialogo di proporzioni capace di donare armonia ed equilibrio alle forme. L'incontro tra l'energia essenziale dell'acciaio grezzo e la ricercatezza delle nuove finiture materiche suggella un'estetica dalla semplicità elaborata.
